**Creating a Personal Webpage – instructions (guide) – worth 200 points
(2 daily grades)**

Web Page Project

The topic of your web page is “All About Me Website”. Using notepad create three webpages about yourself, and a topic you are very interested in (ie: you must include articles (paragraphs) *you have written* about yourself (and on the topic.) It must include images and color. The following items must be included in your web page. Please place a check mark beside each item as you complete them. Answer the questions at the bottom of this page to be turned in **with** the rubric - **when project is completed**.

- title (within code)
- at least 3 pages
- links
- consistent fonts and consistent font colors
- images - clipart (**one must link to the Internet** or link to one of your pages)
- original drawing (use paint, photoshop, publisher, or word)
- at least one picture of yourself – digital (I can take your picture)
- 3 ordered lists 3 unordered lists
- 3 radio buttons and 3 check boxes
- a table with some kind of data in it (**not** your schedule) (centered)
- background. (use the same background on all pages for consistency)
- you must use paragraphs, line breaks, center text, bold and headings
- you must use the CRAP (consistency, repetition-probably your pages, alignment, & proximity)
- print out of story board – next page (map code, pages and turn in with this page and rubric!)
- all code is correct (you have html, title, head, body listed)
- leave your last name off your webpages, please.**
- your first page needs to be saved as index.html or default.html.
- make folder in your personal drive as aboutme.** (not in 6weeks folders)
- put in that a folder named images

Create a story board in the boxes below. Map out what you want your web pages to look like:

home page

page 2

page 3
